

# HEDIS® Guide

## Pediatric Quick Tips

**Submit** consistent, detailed claims to help reduce medical record review in your offices. Include all existing conditions on the claim, at the time of each visit. Every time you see a member is an opportunity for preventive care as well as sick care.

**Schedule** regular checkups and/or blood work for members who are on long-term medications.

**Assess** member compliance/adherence to long-term medication therapy (e.g., asthma medications).

**Document** all procedures done by other physicians with a date and result.
